

**BIG
BELIEVERS
IN BETTER
BANKING**

SQ_{NA}BANK &  EVB[®]

We're not just building a bigger bank, we're building a better one.

EVB and Sonabank have come together as a merger of equals, with one common goal—to serve you better.

By bringing together these two successful organizations, we will be stronger financially, increase our lending power, and become the 7th largest community bank headquartered in Virginia—with convenient locations in Virginia, Maryland and the Washington, D.C. area.

With our commitment to growth, profitability and improved shareholder value, our merger will give our customers greater access to the leading Small Business Administration lenders among community banks, a wider range of commercial banking services to small and mid-sized businesses, and unique retail products like Kasasa[®], which rewards our customers for banking with us; P.O.W.E.R.[®], a program designed specifically for women in business; and Community Believers, a program for non-profit organizations.

But most importantly, the same people you've come to know and trust will continue to provide you with the same exceptional service you've always received when banking with us.

Simply put, together we are better—for our customers, our employees, our shareholders and our communities.
