## WE'RE NOT JUST BUILDING A BIGGER BANK, WE'RE BUILDING A BETTER ONE

EVB and Sonabank have come together as a merger of equals, with one common goal—to serve you better. By bringing together these two successful organizations, we will be stronger financially, increase our lending power, and become the 5th largest community bank headquartered in Virginia—with 45 convenient locations in Virginia, Maryland and the Washington, D.C. area.

With our commitment to growth, profitability and improved shareholder value, our combined companies have been working together as a team to streamline lending and operational processes to provide

a better experience for our customers. Through this process we have carefully researched our markets and have decided to close two of our lower volume branches (Warrenton-Broadview and Frederick, MD). We are excited to open a new branch in the rapidly growing community of River's Bend in Chesterfield County, VA, opening early October 2017. Another exciting project has been the development of the new mission, vision, and values for our new company (to be released early Fall 2017) as well as creating improved policies and procedures that will provide our customer facing teams more time to focus on serving customers.

Our teams have been diligently preparing for our system and product integration for the weekend of September 15-17, 2017. As a Sonabank customer, you will now have access to new products such as Kasasa®, which rewards our customers for banking with us, P.O.W.E.R., a program designed specifically for women in business, and Community Believers, a program for non-profit organizations. As we navigate through these changes, you'll still see the same familiar faces, eager to serve you.
